

13th Annual Meeting of China Association for Science and Technology
International Forum on the Development of
Traditional Chinese Medicine

Third Notice

Sponsored by: China Association for Science and Technology
Tianjin Municipal Government

Undertaken by: China Association of Traditional Chinese Medicine
Tianjin University of Traditional Chinese Medicine
Tianjin State Key Laboratory of Modern Chinese Medicine

Tianjin • China
21-23 September 2011

Invitation

Dear Sir/Madam _____,

On behalf of the organizing committee, I would like to extend a special invitation to you to participate in *International Forum on the Development of Traditional Chinese Medicine*, to be held in Tianjin, China from 21 to 23 September, 2011, sponsored by China Association for Science and Technology and Tianjin Municipal Government, undertaken by China Association of Traditional Chinese Medicine, Tianjin University of Traditional Chinese Medicine and Tianjin State Key Laboratory of Modern Chinese Medicine, the theme of which is *Inheritance, Innovation and Development of Traditional Chinese Medicine*.

As an important component of Chinese culture, Traditional Chinese Medicine has made brilliant achievements and contributed significantly to the health of the Chinese people and the whole world in the course of its historical development. In the 21st century, its advantage and success in the prevention and treatment of non-infectious diseases and diseases caused by inappropriate lifestyles have attracted even a wider attention. Meanwhile, the advancement of modern science, medicine and technology has facilitated an outstanding progress in scientific research of Chinese medicine and Chinese materia medica. To date, Tianjin University of Traditional Chinese Medicine has successfully held six sessions of “International Symposium on Traditional Chinese Medicine”, which has evolved into an influential international conference. At *International Forum on the Development of Traditional Chinese Medicine*, we plan to invite top international and domestic researchers and scholars to speak in one of the following three panels on “TCM Theory and Clinic”, “Chinese Materia Medica and Formula” and “Enterprises Workshop”. We expect that the 3-day forum will provide a platform for all participants to exchange recent research findings and to share ideas and plans on TCM modernization and internationalization.

As an important port city in northern China, Tianjin is undergoing profound changes with the implementation of National Development Plan of Bohai Rim Region. Tianjin Binhai New Area Dist. has become a lustrous pearl of the Bohai Gulf and one of the symbols of new development zones featuring the integration of tourism, new high-tech industry, and the establishment of new eco-town. With a history of over 600 years, Tianjin has taken on a new look. Among its numerous tourist attractions are Shi's Grand Mansion, Wudadao Outlandish Tourist Area, Italian Style Area and Haihe River, a mix of extraordinary architectural styles and exotic local flavor. I would like to convey my sincerest welcome to all of you to attend *International Forum on the Development of Traditional Chinese Medicine* and to visit Tianjin city, its Binhai New Area Dist., and Tianjin University of Traditional Chinese Medicine.

I look forward to seeing you in the Golden Autumn in Tianjin!

Prof. Zhang Boli

Chairperson, President of Tianjin University of Traditional Chinese Medicine

25 July 2011

13th Annual Meeting of China Association for Science and Technology
International Forum on the Development of Traditional Chinese Medicine

Organization of the Forum

Sponsored by: China Association for Science and Technology
Tianjin Municipal Government

Undertaken by: China Association of Traditional Chinese Medicine
Tianjin University of Traditional Chinese Medicine
Tianjin State Key Laboratory of Modern Chinese Medicine

Supported by:

Session Chairs: ZHANG Boli
President of Tianjin University of Traditional Chinese Medicine
Academician of Chinese Academy of Engineering

David M. Eisenberg
Bernard Osher Distinguished Associate Professor of Medicine,
Harvard Medical School Osher Center for Integrative Medicine

Academic Committee

Chairs: LIU Changxiao
Academician of Chinese Academy of Engineering
CHEN Kaixian
President of Shanghai University of Traditional Chinese Medicine
Academician of Chinese Academy of Sciences

Members: GAO Sihua
President of Beijing University of Chinese Medicine

LIU Baoyan

Managing Vice-president of Chinese Academy of Chinese Medical Sciences

WU Yiling

President of Hebei Integrative Medical Research Institute,

Academician of Chinese Academy of Engineering

ZHU Yan

Director of Tianjin State Key Laboratory of Modern Chinese Medicine

GAO Xiumei

Vice president of Tianjin University of Traditional Chinese Medicine

CHENG Yiyu

Dean of College of Pharmaceutical Sciences, Zhejiang University

NOTES FOR PARTICIPANTS

Dear guests and participants, *International Forum on the Development of Traditional Chinese Medicine* will be held as scheduled, and we are looking forward to meeting the TCM experts from all over the world at the bank of Haihe River and share our enthusiasm and joy. Participants please read the following notes:

1. Registration Time: Sept. 20, 2011 (Tuesday) all day

2. Registration Place:

(1) Tianjin Saixiang Hotel

Address: No.8, Meiyuan Rd, Huayuan Industrial Zone, New Technology Industry Park, Tianjin

Tel: 86-22-23768888 Fax: 86-22-23769999

(2) Tianzhong Hotel of Tianjin University of Traditional Chinese Medicine

Address: Intersection of Anshanxi Rd. and Nanfeng Rd., Nankai Dist., Tianjin

Tel: 86-22-23051006; 86-22-27486658; 86-22-59596336 Fax: 86-22-27412043

3. Registration Fee: 2,000RMB or 300USD for each overseas participant, 1,500RMB for each domestic participant, and 50% off for students. It includes expenses of forum materials, paper collections, souvenir, food and highlight visit. Please pay in cash upon registration. The accommodation expense will be covered on participants' own.

4. Forum Language: Chinese and English (Simultaneous interpretation is available during special reports and TCM Theory and Clinic Session but only English for Chinese Materia Medica and Formula

Sessions; The Enterprises Forum can be either Chinese or English.)

5. There will be 30 minutes for each Special Report including 25 minutes presentation and 5 minutes for questions, and 20 minutes for key-note speeches including 15 minutes presentation and 5 minutes for questions. The question time can be adjusted by the speaker.
6. 60 papers will be exhibited during the poster sessions, 30 for TCM Theory and Clinic and Chinese Materia Medica respectively. 30 papers will be exhibited and changed every half day. The poster format is **60 x 40cm** (suggested) or three to four pages on A4 paper. Authors are required to design the poster and submit it upon registration.
7. Preparation shall be made for key-note speeches and poster exhibitions. The PPT of special report and key-note speech of TCM Theory and Clinic Session should be sent to forum Email before September 5. If the participant cannot attend on time, an advance notice to the Liaison Office is required.
8. Overseas participants please inform the Liaison Office of your arriving date, time and flight number in advance for picking up services.
9. The International Forum on the Development of Traditional Chinese Medicine will be held together with the 13th Annual Meeting of China Association for Science and Technology. More information is available on <http://2011.cast.org.cn>.
10. Tianjin Saixiang Hotel and Tianzhong Hotel are two designated hotels of the Forum. The Liaison Office should be informed of your Hotel reservation.
11. Please act according to the final Booklet received at the Registration desk.
12. Liaison, Map and Route of Saixiang Hotel (see the map):

(1) Please Contact:

Ms. ZHANG Yanna, Ms. PAN Miao

Liaison Office of *International Forum on the Development of Traditional Chinese Medicine*

Address: International Education College, Tianjin University of Traditional Chinese Medicine,

88 Yuquan Road, Nankai District, Tianjin, P.R. China, 300193

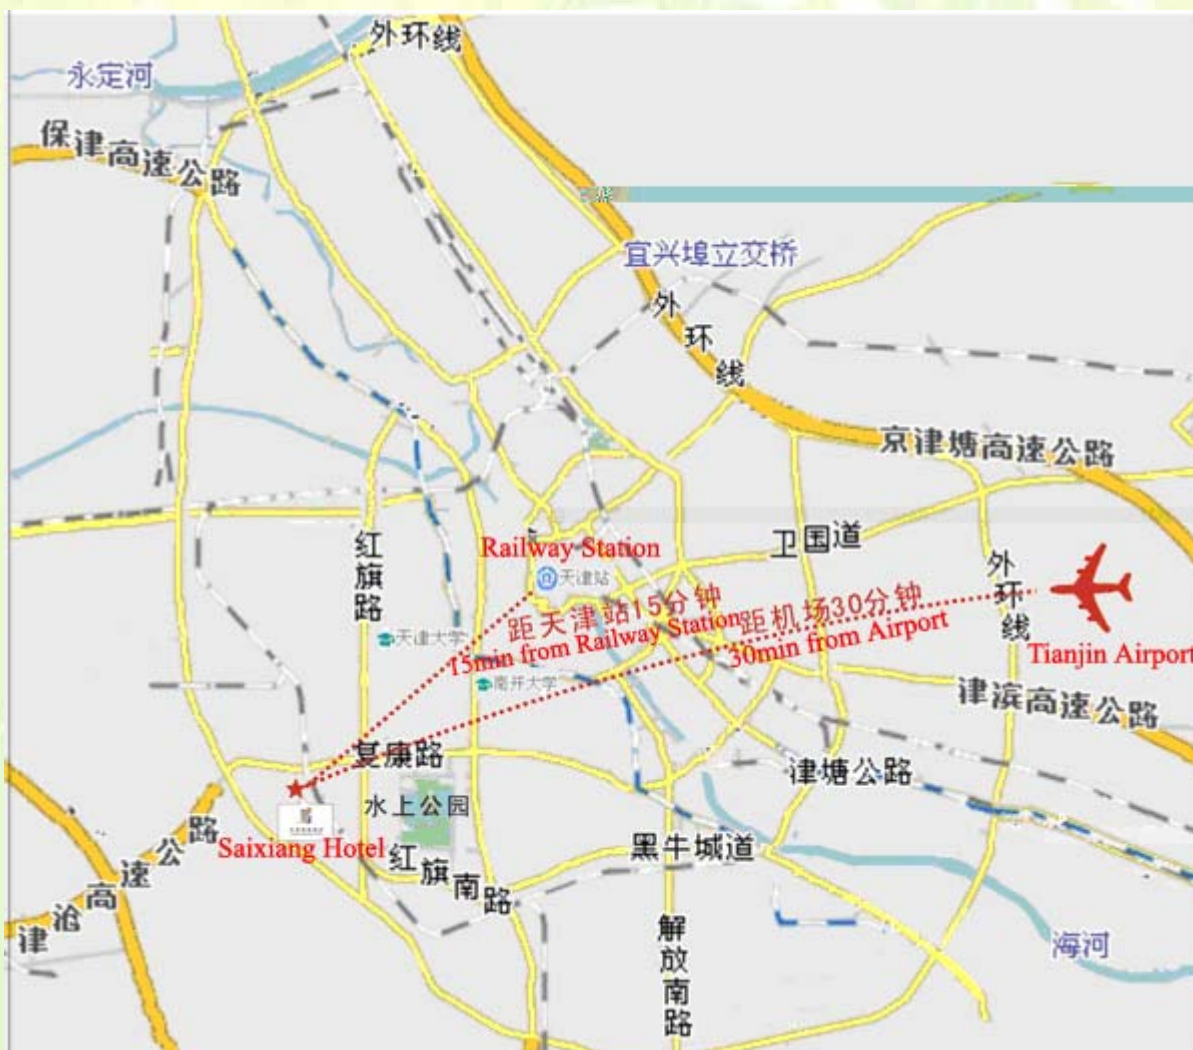

Tel: 86-22-59596555, 86-22-27374931

Fax: 86-22-27374931

E-mail: tcmforum@126.com

tcmforum@hotmail.com

(2) Route to Saixiang Hotel:

The 13th Annual Meeting of China Association for Science and Technology will arrange picking-up at Beijing Airport, Tianjin Airport and Tianjin Railway Station. Please see the website for detailed information or wait for announcement. Participants can also refer to the following route:

a. from Beijing Airport: Beijing Airport→by airport shuttle bus →Tianjin Tianhuan Bus Station
→by taxi→**Saixiang Hotel (about 4 miles) /Tianzhong Hotel (3 miles)**

b. from Tianjin Airport: →by airport shuttle bus →Nanjing Road Station→by taxi→**Saixiang Hotel (about 10 miles);**

Tianjin Airport→by airport shuttle bus→Nanjing Road Station→by taxi→**Tianzhong Hotel(about 6 miles);**

c. from Tianjin Railway Station: Tianjin Railway Station→by taxi→**Saixiang Hotel (11 miles);**

Tianjin Railway Station→by taxi→**Tianzhong Hotel (6 miles).**

International Forum on the Development of Traditional Chinese Medicine

Provisional Agenda

Wednesday 21 st September 2011	
8:30-9:55	Opening Ceremony of <i>13th Annual Meeting of China Association for Science and Technology</i> Tianjin Meijiang Convention Center
9:55-12:35	Invited Reports of the Annual Meeting
13:00	Lunch Tianjin Saixiang Hotel

I. Special Reports

Afternoon 14:15 - 16:00	Special Reports 3F Grand Ballroom, Saixiang Hotel Chair: ZHANG Boli
14:15 - 14:30	Opening speech: Invited speaker:
14:30-15:00	Special report 1: Clinical and Basic Study of TCM on Chronic Liver Diseases <i>LIU Ping</i> , Shanghai University of Traditional Chinese Medicine, China
15:00-15:30	Special report 2: The Proposed Value of Developing, Implementing and Testing Multi-disciplinary (i.e. East-West) Integrative Care Clinical Centers Across China (and Asia) for Their Potential to Provide Cost Effective Models of Care <i>David M. Eisenberg</i> , Harvard Medical School Osher Center for Integrative Medicine, U.S.A.
15:30 -16:00	Special report 3: Complexity of Genetic Variations and Metabolic Pathways Lead to Variable Active Compounds Content and Quality in Chinese Medical Plant, <i>Lonicera japonica</i> Thunb <i>HUANG Luqi</i> , Institute of Chinese Materia Medica, Academy of Chinese Medical Sciences, China
16:00-16:15	Tea break
16:15-17:45	Special Reports 3F Grand Ballroom, Saixiang Hotel Chair: David M. Eisenberg
16:15 -16:45	Special report 4: Ancient Chinese Philosophy and Traditional Medicine from the View of Modern Sciences <i>Ting-Chao Chou</i> , Preclinical Pharmacology Core Molecular Pharmacology & Chemistry Program Memorial Sloan-Kettering Cancer Center, U.S.A.
16:45 -17:15	Special report 5: Network Pharmacology for Chinese Medicine <i>CHENG Yiyu</i> , College of Pharmaceutical Sciences, Zhejiang University, China
17:15 - 17:45	Special report 6: Effects of Nobiletin, A Citrus Flavonoid, on Catecholamine Synthesis and Secretion <i>Yanagihara Nobuyuki</i> , University of Occupational and Environmental Health, Japan

18:30	Welcoming dinner 3F Grand Ballroom
-------	--------------------------------------

II. TCM Theory and Clinic Session

Thursday 22 nd September 2011	
Morning 08:30-09:50	TCM Theory and Clinic 3F Conference Room I Chairs: DONG Shangpu, MENG Jingyan
08:30-08:50	K1: Research on Anti-pain Effects of Acupuncture <i>Truong Viet Binh</i> , Vietnam University of Traditional Medicine, Vietnam
08:50-09:10	K2: Study on “Five Zang Responding to Nature” of Traditional Chinese Medicine <i>GUO Xiazhen</i> , Beijing University of Chinese Medicine, China
09:10-09:30	K3: Chiropractic and TCM in the 21st Century <i>Mark T. Zeigler</i> , Northwestern Health Sciences University, U.S.A.
09:30-09:50	K4: Linkages between Traditional Chinese medicine pattern Classification and Biomedicine in Rheumatoid Arthritis <i>LU Aiping</i> , Institute of Basic Research In Clinical Medicine of China Academy of Chinese Medical Science, China
09:50-10:05	Tea break
10:05-11:45	TCM Theory and Clinic 3F Conference Room I Chairs: LU Aiping, TRUONG Viet Binh
10:05-10:25	K5: Biomechanical Approach Related to Meridians and Myofascias; Biomechanical Acupuncture <i>Seonghyung Cho</i> , Oriental Medicine School, Daejeon University, Korea
10:25-10:45	K6: Zhang Zi-he's Pi-Wei Theory and His Therapeutic Features <i>DONG Shangpu</i> , TCM College of Hebei Medical University, China
10:45-11:05	K7: Three Analyses for English Education in Acupuncture Field <i>Hisayo Takagi</i> , Suzuka University of Medical Science, Japan
11:05-11:25	K8: Further Discussion on the Predominance of TCM in Treating Infectious Diseases <i>WANG Xiulian</i> , Tianjin University of Traditional Chinese Medicine, China
11:25-11:45	K9: Contribution to the Theme of Integration between Western and Chinese Medicine in the Czech Republic <i>Ludmila Bendova</i> , Czechoslovak SinoBiology Society, Czech
12:00	Lunch Café De Tresor
Afternoon 14:00-15:20	TCM Theory and Clinic 3F Conference Room I Chairs: SUN Zengtao, MAO Jingyuan
14:00-14:20	K10: Significance of Health-Preserving Acupuncture for Geriatric Medical Care <i>Kazu Mori</i> , Tokyo International Institute for Systematizing TCM Theories, Japan
14:20-14:40	K11: Optimizing and Evaluating the Strategy of TCM Treatment <i>ZHANG Junping</i> , First Teaching Hospital of Tianjin University of Traditional Chinese Medicine, China
14:40-15:00	K12: Traditional Chinese Medicine in E.U.Italy: a Turin Hospital Experience <i>Carlo Bagliani</i> , Traditional Med Association/MTC Center of S.G.Bosco Hospital, Italy
15:00-15:20	K13: Effects of Acupuncture at GB34 on Carbon Tetrachloride-induced Acute Liver Injury in Rats <i>Torao Ishida</i> , Suzuka University of Medical Science, Japan

15:20-15:35	Tea break
15:35-17:15	TCM Theory and Clinic 3F Conference Room I Chairs: ZHANG Junping, BAGLIANI Carlo
15:35-15:55	K14: New Strategies for the Development of Traditional Chinese Medicine <i>Geoffrey Alan Cordell</i> , Natural Products Inc., U.S.A
15:55-16:15	K15: Literature Study on the Traditional Chinese Medicine Syndromes Regional Distribution of Coronary Artery Disease <i>MAO Jingyuan</i> , First Teaching Hospital of Tianjin University of Traditional Chinese Medicine, China
16:15-16:35	K16: The Present Situation and Problems of Japanese Oriental Medicine <i>Fuke Shintaro</i> , Kobe Oriental Medical College of Japan, Japan
16:35-16:55	K17: Talking about Traditional Chinese Medicine Research Ideas from the Perspective of Prevention and Treatment of Chronic Respiratory Diseases <i>SUN Zengtao</i> , Second Teaching Hospital of Tianjin University of Traditional Chinese Medicine, China
16:55-17:15	K18: A Brief Study of <i>Reconciliation</i> of TCM <i>ZOU Shuxuan</i> , Second Teaching Hospital of Tianjin University of Traditional Chinese Medicine, China
17:15-17:45	Poster Exhibition
18:00	Dinner 1F Café De Tresor
19:00– 21:00	Haihe River Night Tour

III. Chinese Materia Medica and Formula Session 1

Thursday 22 nd September 2011	
Morning 08:30-09:50	Chinese Materia Medica Chemistry 3F Conference Room II Chair: HUANG Luqi
08:30-08:50	K1: Studies of the Ethanol Extracts of Ginseng and the Derivatives of Gisenosides on Anticancer <i>LIU Liang</i> , Macau University of Science and Technology, Macau China
08:50-09:10	K2: DNA Barcoding for Standardization and Globalization of Traditional Chinese Medicines <i>CHEN Shilin</i> , Institute of Medicinal Plants, Chinese Academy of Medical Science, China
09:10-09:30	K3: Usefulness of Metabolomics in the Analysis of in vivo Function of Transporters Yoshikatsu Kanai, Osaka University, Japan
09:30-09:50	K4: High-Speed and Sensitive Chromatographic Methods for Analysis of Herbal Medicines <i>LI Ping</i> , State Key Laboratory of Natural Medicines, China Pharmaceutical University, China
09:50-10:05	Tea break
10:05-11:45	Chinese Materia Medica Chemistry 3F Conference Room II Chair: Yoshikatsu Kanai
10:05-10:25	K5: Standardization of Chinese Herbs and Rational Administration in Clinic

	<i>XIAO Xiaohe</i> , Military Institute of Chinese materia medica, 302 Military Hospital of China
10:25-10:45	K 6: Biotransformation of Glycosides from Herbs <i>MA Baiping</i> , Institute of Radiation Medicine, Chinese Academy of Military Medical Sciences, China
10:45-11:05	K7: Studies on the Effective Substantial Basis in TCM Patent Drug WeiChang'an Pill <i>GAO Wenyuan</i> , School of Pharmaceutical Science and Technology, Tianjin University, China
11:05-11:25	K8: Preparation and in vitro Release Evaluation of pH-and Time-Based Pellets for Colon-Specific Delivery of Emodin <i>LI Fanzhu</i> , Zhejiang University of Traditional Chinese Medicine, China
11:25-11:45	K9: Influence of Compatibility on Absorption Process of Active Constituent of Maqianzi in Rats <i>SI Duanyun</i> , Tianjin Institute of Pharmaceutical Research, China
12:00-13:00	Lunch 1F Café De Tresor
下午 14:00-15:20	Chinese Materia Medica Chemistry 3F Conference Room II Chair: LI Ping
14:00-14:20	K10: Study on the Chemical Constituents Changes of Aconitum Carmichaeli in Compatibility Process <i>LIU Zhiqiang</i> , Changchun Institute of Applied Chemistry, Chinese Academy of Sciences
14:20-14:40	K11: Study on Chemical Material Basis and Mechanism Action of Compound Prescription Traditional Chinese Medicine Qishenyiqi Dropping Pills <i>BAI Gang</i> , College of Pharmacy of Nankai University, China
14:40-15:00	K12: Traditional Medicine in Kenya <i>Grace Thoithi</i> , University of Nairobi, Kenya
15:00-15:20	K13: Study on Anti-diabetic Active Ingredients of Mango Leaves <i>ZHANG Yi</i> , Tianjin University of Traditional Chinese Medicine, China
15:20-15:35	Tea break
15:35-17:15	Chinese Materia Medica Chemistry 3F Conference Room II Chair: MA Baiping
15:35-15:55	K14: New Metabolomic Approach to Evaluation of Drug Efficacy and Toxicity of Traditional Chinese Medicines A Jiye, Key Laboratory of Natural Pharmacokinetics of China Pharmaceutical University, China
15:55-16:15	K15: The Effect of Song kangquan on Thrombosis and Abortion <i>SHAO Hui</i> , Derun Medical Research Institute of Japan, Japan
16:15-16:35	K16: Study on Active Fractions of Chinese Medicine with the Function of Improving Insulin Resistance <i>WANG Tao</i> , Tianjin University of Traditional Chinese Medicine, China
16:35-16:55	K17: Study on a New Ophthalmic Route of Administration System with Chinese Medicine <i>LIU Zhidong</i> , Tianjin University of Traditional Chinese Medicine, China
16:55-17:15	K18: <i>SU Yanfang</i> , School of Pharmaceutical Science and Technology, Tianjin University, China
17:15-17:30	Poster Exhibition
18:00	Dinner 1F Café De Tresor

19:00-21:00	Haihe River Night Tour
-------------	------------------------

IV. Chinese Materia Medica and Formula Session 2

Thursday 22 nd September 2011	
Morning 08:30-09:50	Chinese Materia Medica Pharmacology 3F Conference Room III Chairs: Yanagihara Nobuyuki
08:30-08:50	K1:Stroke: A Timely Challenge And Opportunity To The Traditional Chinese Medicine <i>WANG Xiaoying</i> , Departments of Neurology and Radiology at Massachusetts General Hospital, Harvard Medical School. U.S.A.
08:50-09:10	K2:Thoughts and Technology System of Traditional Chinese Medicine Incompatibility <i>DUAN Jin ' ao</i> , Nanjing University of Traditional Medicine, China
09:10-09:30	K3: Mechanism-based Estrogenic Efficacy and Bioactive Constituents of Qing'E Formula <i>WANG Zhengtao</i> , Shanghai University of Traditional Chinese Medicine
09:30-09:50	K4:The Hypouricemic and Nephroprotective Effects of Ermiao wan Categorized Formula in Hyperuricemic Mice <i>KONG Lingdong</i> , Nanjing University of Traditional Medicine, China
09:50-10:05	Tea break
10:05-11:45	Chinese Materia Medica Pharmacology 3F Conference Room III Chairs: WANG Xiaoying
10:05-10:25	K5: Protection Against Low-dose-rate Radiation by Natural Products <i>GAO Yue</i> , Institute of Radiation Medicine, Chinese Academy of Military Medical Sciences
10:25-10:45	K6: Methodology for Multicomponent Pharmacokinetic Studies of Herbal Medicines <i>LI Chuan</i> , Shanghai Institute of Materia Medica, China
10:45-11:05	K7: Mechanistic Dissection of two TCM Formulas with Highly Significant Clinical Efficacy as Models Demonstrating Multi-target and Synergistic Action of Compound Traditional Chinese Medicine <i>Yan Zhu</i> , State Key laboratory of Modern Chinese Medicine, China
11:05-11:25	K8:Anti-diabetic and Anti-obese Constituents from Several Medicinal Herbs and Foods <i>Yoshikawa Masayuki</i> , Kyoto Pharmaceutical University, Japan
11:25-11:45	K9: The Spectrum-activity Integrated Fingerprint—An Effective Mode for the Evaluation of Herbal Medicines <i>YU Boyang</i> , Key Laboratory of Natural Pharmacokinetics, China Pharmaceutical University, China
12:00-13:00	Lunch 1F Café De Tresor
下午 14:00-15:20	Chinese Materia Medica Pharmacology 3F Conference Room III Chairs: ZHU Yan , Ting-chao Chou
14:00-14:20	K10:Improve Effect and Its Mechanism of Yangxueqingnao Granule (Cerebralcare Granule) on Ischemia-reperfusion Induced Blood-brain Barrier Injury in Rats <i>HAN Jingyan</i> , Tasly Microcirculation Research Center of Peking University Health Science Center, Department of Integrated TCM-WM Peking University Health Science Center, China
14:20-14:40	K11: Herb-Drug Metabolic Interaction: Challenges, Methods, and Their Applications

	in Clinical Practice <i>HU Zhuohan</i> , Research Institute for Liver Diseases (Shanghai) Co. Ltd., China
14:40-15:00	K12: Study on Compatibility of Chinese Medicine Ingredients Improving Nerve Regeneration <i>ZHUANG Pengwei</i> , Tianjin University of Traditional Chinese Medicine, China
15:00-15:20	K13: Direct Vasorelaxation by a Novel Phytoestrogen Tanshinone IIA Is Mediated by Nongenomic Action of Estrogen Receptor Through Endothelial Nitric Oxide Synthase Activation and Calcium Mobilization <i>FAN Guanwei</i> , Tianjin University of Traditional Chinese Medicine, China
15:20-15:35	Tea break
15:35-17:15	Chinese Materia Medica Pharmacology 3F Conference Room III Chairs: GAO Xiumei
15:35-15:55	K14: Network Target Approach to Explore the Action Mechanism of Herbal Formulae <i>LI Shao</i> , Tsinghua University, China
15:55-16:15	K15: Rat Single Oral Dose Toxicity Test of Armeniacae Semen <i>Meeyeon-park</i> , College of Oriental Medicine, DeaguHaany University, Korea
16:15-16:35	K16: Study on Effect and Mechanism of Compatibility of Glucoperiplocymarin and Panax Notoginsenosidum <i>WANG Yi</i> , Tianjin University of Traditional Chinese Medicine, China
16:35-16:55	K17: Interactions of Drugs: CYP450 and P-gp Play an Important Role in Fate of Drugs <i>HE Xin</i> , Tianjin University of Traditional Chinese Medicine, China
16:55-17:15	K18: Neuroprotection of Scutellarin is Mediated by Inhibition of Microglial Inflammatory Activation <i>WANG Shaoxia</i> , Tianjin University of Traditional Chinese Medicine, China
17:15-17:30	Poster Program
18:00	Dinner 1F Café De Tresor
19:00-21:00	Haihe River Night Tour

V. Enterprises Forum

Thursday 22 nd September 2011	
Morning 08:30-09:50	Enterprises Forum 3F Conference Room IV Chair:
08:30-08:50	K1: Tianjin Tongrentang Pharmaceutical Co. Ltd.
08:30-08:50	K2: Tianjin Zhongxin Pharmaceutical Group Corporation Limited
09:10-09:30	K3: Henan Wanxi Pharmaceutical Co., Ltd.
09:30-09:50	K4: Zhongheng Group Guangxi Wuzhou Pharmaceutical(Group) Co., Ltd.

09:50-10:05	Tea break
10:05-11:45	Enterprises Forum 3F Conference Room IV
	Chair:
10:05-10:25	K5: Tianjin Hongrentang Pharmaceutical Co. Ltd.
10:25-10:45	K6: Buchang Pharma Group
10:45-11:05	K7: SongKangQuan Is Anti-phospholipid Antibody Nozaki Tosiaki, Nozaki Pharmacy of Oriental Medicine, Japan
11:05-11:25	K8: Hebei Ping An Health Group Co., Ltd., China
11:25-11:45	K9: Chiatai Qingchunbao Pharmaceutical Co., Ltd., China
12:00	Lunch 1F Café De Tresor

VI. Poster Session

Thursday 22 nd September 2011	
08:30-12:00 Morning	
No.	Poster Session 1 3F
P1.01-P1.15	TCM Theory and Clinic
P1.01	Study on the Key Technologies of the Improvement of Quality of Life in PD Patients with TCM <i>YANG Hongtao</i> , First Teaching Hospital of Tianjin University of Traditional Chinese Medicine, China
P1.02	Effect of Traditional Chinese Medicine on Diminished Ovarian Reserve in Assisted Reproductive Technology <i>XIA Tian</i> , First Teaching Hospital of Tianjin University of Traditional Chinese Medicine, China
P1.03	Non-small Cell Lung Cancer Survival Analysis <i>JIA Yingjie</i> , First Teaching Hospital of Tianjin University of Traditional Chinese Medicine, China
P1.04	The Inhibitory Effects of Dispelling Toxins and Dredging Collaterals on the Symptoms of Collagen-induced Arthritis in Rats <i>LIU Wei</i> , First Teaching Hospital of Tianjin University of Traditional Chinese Medicine, China
P1.05	It's Feasible to Establish a Clinical Pathway which is Suitable to TCM <i>XU Qiang</i> , Second Teaching Hospital of Tianjin University of Traditional Chinese Medicine, China
P1.06	Chinese Medicine Syndromes in Animal Disease Research Model of Replication <i>JIANG Xijuan</i> , Tianjin University of Traditional Chinese Medicine, China
P1.07	Clinical Research on Curative Effect and TCD Change with Scalp Acupuncture Intervening Acute Ischemic Stroke <i>FU Kun</i> , Second Teaching Hospital of Tianjin University of Traditional Chinese Medicine, China

P1.08	To Investigate the Effect of “Fumigation and Moxibustion” in Yin Syndrome Pyocutaneous Disease <i>ZHU Chaojun</i> , Second Teaching Hospital of Tianjin University of Traditional Chinese Medicine, China
P1.09	To Observe Yiqihuoxue Control Hand-foot Syndrome Associated Xeloda Efficacy <i>HUANG Minna</i> , First Teaching Hospital of Tianjin University of Traditional Chinese Medicine, China
P1.10	Clinical Research on Chronic Cough by the Treatment of Combination of Differentiation and Disease <i>YIN Xinzhong</i> , First Teaching Hospital of Tianjin University of Traditional Chinese Medicine, China
P1.11	On Five Principles of Treating Collateral Disease by Ye Tianshi <i>ZHANG Bingli</i> , Tianjin University of Traditional Chinese Medicine, China
P1.12	Differentiation of Jaundice <i>WANG Zhigang</i> , Nan kai Hospital of Traditional Chinese Medicine, Tianjin, China
P1.13	The Study of The Treatise on Coldinduced Febrile Diseases’ six channels in the role of water metabolism <i>ZHANG Guojun</i> , Tianjin University of Traditional Chinese Medicine, China
P1.14	The Investigation of the Proposed of the Treatment Method of Influenza Named "Cold and Heat Double Solutions, Dredge the Evil Thoroughly" and Its Mechanism Research <i>FENG Jihong</i> , Second Teaching Hospital of Tianjin University of Traditional Chinese Medicine, China
P1.15	Staging Use Vacuum Sealing Drainage combined Sheng ji Sliver can Promote the Wound Healing in Infected Diabetic Foots <i>MA Jing</i> , Second Teaching Hospital of Tianjin University of Traditional Chinese Medicine, China
P1.15-P1.30	Chinese Materia Medica and Formula
P1.16	The Establishment of Purification and liquid fermentation system of Endophyte in Mongolia Huangqi <i>MA Wei</i> , Heilongjiang University of Traditional Chinese Medicine, China
P1.17	Recent Strategy to the “Traditional Herbal Medicinal Products Directive” of European Union <i>SU Rui</i> , China Academy of Chinese Medical Sciences
P1.18	The Effects of Sodium Tanshinone B on Protein Expression of NMDAR1 in Rat Hippocampal Subfields following Focal Ischemia-reperfusion Injury <i>CAI Qing</i> , Tianjin University of Traditional Chinese Medicine, China
P1.19	Effects of Gelucire44/14 for Drugs on in vitro and in vivo Improvement on Transcorneal Permeation <i>LIU Rui</i> , Tianjin University of Traditional Chinese Medicine, China
P1.20	Study on Chemical Material Basis and Mechanism Action of Compound Prescription Traditional Chinese Medicine Qishenyiqi Dropping Pills <i>JIANG Min</i> , College of Pharmacy, Nankai University, China
P1.21	Chinese Mushrooms Supplemented with Herbal Residues Produce Secondary Metabolites that Upregulate IL-7 leading to Enhanced Immunomodulation. <i>Mwitari Peter</i> , Tianjin University of Traditional Chinese Medicine, China
P1.22	Effects of EPCs Preconditioned with Salvianolic acid B combined with BMSc Transplantation into Infarcted Myocardium on the Expression of Desmin、 and α -actin mRNA in Cardiac Muscle in rat <i>TAN Junzhen</i> , Tianjin University of Traditional Chinese Medicine, China

P1.23	<i>Aspergillus niger</i> on Osthole Biotransformation Process Optimization Studies <i>SUN Jing</i> , Tianjin University of Traditional Chinese Medicine, China
P1.24	Effects of Ginsenoside Re and its Molecular Mechanisms in Cardiomyocytes <i>BAI Changxi</i> , Mongolia Medical College of Inner Mongolia Medical College, China
P1.25	Effects of Liquid water Mention of Radix Glycyrrhizae and Radix Astragali on Mycelial Growth and Exopolysaccharide of Liquid Fermentation for Grifola Frondosa <i>LU Siqu</i> , Tianjin University of Traditional Chinese Medicine, China
P1.26	The Effect of Psoralen on Tissue Factor Producton in Human Umbilical Vein Cells <i>ZHONG Peiru</i> , Tianjin University of Traditional Chinese Medicine, China
P1.27	The Research on the Effort on location of Berberine from Different Processed Product of Phellodendron <i>ZHANG Fan</i> , Liaoning University of Traditional Chinese Medicine, China
P1.28	Studies on Herb-Drug Interaction between Tetramethylpyrazine (TMP) and Extracts of Radix Angelica dahuricae <i>Emmanuel Koomson</i> , Tianjin University of Traditional Chinese Medicine, China
P1.29	The Expression of the Impact of PESV on Leukemia Suffered Mice Bcl-2, SDF-1 α and TGF- β 1 <i>YANG Wenhua</i> , First Teaching Hospital of Tianjin University of Traditional Chinese Medicine, China
P1.30	Four Issues of Basic Research on Categorized Formulae of Chinese Medicine <i>FAN Xinsheng</i> , Nanjing University of Chinese Medicine, China

Thursday 22nd September 2011

14:00-17:30 Afternoon

No.	Poster Session 2 3F
P2.01-P2.15	TCM Theory and Clinic
P2.01	Preliminary Studies on the Correlation between the Dampness Theory of TCM and Obesity <i>CHANG Shu mei</i> , Sinomedicine Aesthetic Sdn. Bhd., Malaysia
P2.02	Three Elements for Acupuncture Treating Depression Syndrome <i>HE Shuhuai</i> , Italian Institute of Traditional Chinese Medicine “Villa Giada”, Italy
P2.03	Brief Introduction to Intelligent Version of Medical Treasures of the Golden Chamber <i>SONG Junsheng</i> , Tianjin University of Traditional Chinese Medicine, China
P2.04	Regulating Effect of Dispersing Lung Qi and Strengthening Spleen Qi method on IFN- γ and IL-4 in Serum and BALF of Asthma Rats <i>MA Zuoying</i> , Tianjin University of Traditional Chinese Medicine, China
P2.05	Research on Clinical Experience Educational Level <i>Mitsukami Nobuyuki</i> , Kobe Oriental Medical College, Japan
P2.06	One Way To Lose Weight <i>Haruyama Naotaka</i> , Haruyama Acupuncture and Orthopedics College, Japan
P2.07	About Relieving One's Pain by Injury Recall Technique (IRT) and TOUCH AND TAP Technique <i>Ishida Shouji</i> , Ishida Chiropractic Office, Japan
P2.08	Observation of Therapeutic Effect of Oral and Iontophoresis of Chinese Medicine Treating Cyclomastopathy belonging to “Liver Depression and Phlegm Stagnation” Type <i>ZHANG Lifan</i> , First Teaching Hospital of Tianjin University of Traditional Chinese Medicine, China

P2.09	Theory and Practice of Health Preserving Qi Gong “Intestinal Breathing Method” <i>Setsuo Iino</i> , Traditional Chinese Medicine College of Tokyo, Japan
P2.10	Surgery of Traditional Chinese Medicine Treating Diabetes with Carbuncle <i>PENG Juan</i> , Second Teaching Hospital of Tianjin University of Traditional Chinese Medicine, China
P2.11	On Meridian’s Qi and How to Regulate the Circulations of Different Meridians <i>ZHONG Qiangwei</i> , Tianjin University of Traditional Chinese Medicine, China
P2.12	Brief Analysis of Professor 's Huang Wenzheng Diagnosis and Treatment Experience in CKD staging by K/DOQI <i>ZHAO Jingli</i> , First Teaching Hospital of Tianjin University of Traditional Chinese Medicine,, China
P2.13	A Comparative Observation of the Clinical Effects on Chymotrypsin and Hongshengdan Treating Diabetic Foot Ulcers <i>LI Pinchuan</i> , Second Teaching Hospital of Tianjin University of Traditional Chinese Medicine, China
P2.14	Advances in Traditional Chinese Medical Treatment of Nonalcoholic Fatty Liver Disease <i>GUO Hui</i> , First Teaching Hospital of Tianjin University of Traditional Chinese Medicine,, China
P2.15	Theory Study on Immune Relationship Between Seasonal Content Changes of Saliva and Sub-health <i>YUAN Weiling</i> , Tianjin University of Traditional Chinese Medicine, China
P2.16-P2.30	Chinese Materia Medica and Formula
P2.16	Study on the Compatibility Laws of Siwu Decoction Categorized Formulae by 3D Visualization Data Mining <i>SHANG Er'xin</i> , Nanjing University of Chinese Medicine, China
P2.17	Study on Alkaloids from Lycopodium Japanicum Thunb and Their Anti-rheumatic Activities <i>HE Yongzhi</i> , Tianjin University of Traditional Chinese Medicine, China
P2.18	Separation of Flavonoids from Glycyrrhiza Uralensis Fisch. by HSCCC and Evaluation of Their Anti-angiogenic Activity in Zebrafish <i>HAN Liwen</i> , Biology Institute of Shandong Academy of Sciences, China
P2.19	Preparation and in vitro Release Evaluation of pH-and Time-Based Pellets for Colon-Specific Delivery of Emodin <i>YE Xiaoli</i> , Zhejiang University of Traditional Chinese Medicine,, China
P2.20	The Whitening Effect of Hydroxycinnamic Acid Derivatives from Corn (Zea may L.) Bran Extract <i>Taek-kyu Jung</i> , Saimdang Cosmetics Co., Ltd R&D Center, Korea
P2.21	The Hair Growth Promoting Effect of Medicinal Herbal Extracts <i>In-ki Hong</i> , Saimdang Cosmetics Co., Ltd R&D Center, Korea
P2.22	Characterization of Steroidal Saponins from Ovalleaf Aspidistra Rhizome by UPLC-MSE <i>KANG Liping</i> , Tianjin University of Traditional Chinese Medicine, China
P2.23	Quantitative Determination of Puerarin, Daidzin and Paeoniflorin in the Effective Fraction of Qishao Formula by HPLC-PDA <i>DAI Liping</i> , Henan College of Traditional Chinese Medicine, China
P2.24	The Phytoestrogenic Effects Research on Qing E Wan Formula Treating Perimenopausal Rats Induced by Bilateral Oophorectomy <i>ZHANG Jianmei</i> , Tianjin University of Traditional Chinese Medicine, China
P2.25	TG Accumulation Inhibition Active Constituents Study from the Flowers of Abelmoschus manihot (L.) Medic <i>Chen Qiu</i> , Tianjin University of Traditional Chinese Medicine, China
P2.26	Plasma Metabolic Profiling of Normal and Dysmenorrheal Syndrome Rats and Xiang-Fu-Si-Wu Decoction Intervention Based on UHPLC-TOF-MS

	<i>LIU Pei</i> , Nanjing University of Chinese Medicine, China
P2.27	Roles of Paeoniflorin and Senkyunolide I in Siwu Decoction on Antiplatelet and Anticoagulation Activities <i>ZHU Min</i> , Nanjing University of Chinese Medicine, China
P2.28	Traditional Chinese Medicine Plant Resources Innovation and Protection: Chinese Medicine Plant Cell Bank, Component Library and Compound Library <i>ZHANG Wei</i> , Tianjin International Joint Academy of Biological and Medicine, China
P2.29	Direct Vasorelaxation by DanHong Formula in vivo and in Isolated Rat Aorta is Mediated by A NO-cGMP Dependent Pathway <i>WANG Dandan</i> , State Key laboratory of Modern Chinese Medicine, China
P2.30	Anti-platelet and Antithrombotic Activities of QiSenYiQi Dropping Pill are Associated with Its Synergistic Antagonism of Multiple platelet GPCRs. <i>CHen Liping</i> , State Key Laboratory of Modern Chinese Medicine, China

Friday 23 rd September 2011	
Morning	Visiting Binhai New Area/Tianjin International Joint Academy of Biotechnology & Medicine Binhai New Area
